Heavy Duty MULTI-PURPOSE #2 SILICA GREASE

>>Description

CMW Heavy Duty Multi-Purpose #2 Silica Grease is a concentrate of anti-wear, anti-friction chemistries featuring the highest degree of adhesive protection. Made to be used for easy assembly and disassembly of highly loaded threaded parts such as flange bolts, valve stems, etc. Made to be used in extreme high and low temperature conditions, provides corrosion and rust protection.

>>Features

- >Thermal Environment Instrument Tested (AQMD Equipment TVA 1000B)
- > Reduces frictional values
- > Completely oil soluble
- >Excellent adhesion properties to stay on and protect parts
- >Compatible with petroleum and synthetic lubricants
- >Protects assembled parts from rust and corrosion during storage and shipment
- >Will not run or drip from applications (cold or hot)

>>Industrial Applications

- >Nuts
- >Lug Nuts
- >Flange Bolts
- >Valve Stems
- >Anti-Seize Compounds
- >General Maintenance

>>Typical/Test Data

TVA 1000B: 8ppms
Appearance: Transparent
